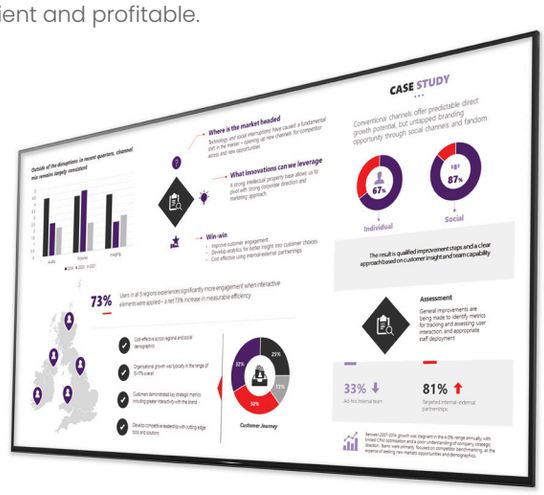
SONY | BARCO

WIRELESS **PRESENTATION AND CONFERENCING** SOLUTIONS

Share your vision, in the meeting room, and beyond with a simple Click thanks to Sony BRAVIA™ Professional displays and Barco ClickShare Conference.

Free yourself from complexity, poor image quality and free yourself to share your ideas with colleagues, clients and collaborators with Sony and Barco wireless presentation and conference solutions.

Barco ClickShare is already the preferred choice of professionals, for simple wireless presentation and collaboration in any meeting room, video call or hybrid meeting. Now, combining ClickShare Conference with the best-in-class picture quality of Sony BRAVIA Professional displays and touch panels delivers accuracy, fluidity and ease-of-deployment to make all your meetings more productive, efficient and profitable.



DELIVERED BY **BRAVIA PROFESSIONAL DISPLAYS**

Leading display innovation and dependability

When your conferencing systems call for absolute reliability, simple integration, connectivity and natural authentic colour, Sony BRAVIA Professional Displays are the unrivalled choice.

Advanced video processing ensures all your viewing is bright and clear, even when reproducing low-resolution streams or competing with modern, naturally-lit, open workspaces.

Sony's strong partnership with Barco makes deployment across your organisation a breeze. BRAVIA Professional Displays can be automatically setup via a USB drive, using Pro Settings Mode to lock functions, network, input and volume settings, schedule power saving and even optimise the display for video calls and collaboration.

DESIGNED FOR **ANY SPACE**

- **HUDDLE ROOMS**
  Transform even small spaces, for inspiring conferencing
- **MEETING ROOMS**
  Device-agnostic wireless conferencing for small and medium spaces
- **CONFERENCE ROOMS**
  Powerful conferencing solutions designed for enterprise-level integration

EASY **WIRELESS CONFERENCING**

ClickShare with the World

Barco's acclaimed ClickShare Conference range allows easy wireless screen sharing and conferencing – leveraging your choice of software and devices to remove all barriers between you and your team or customers.

The powerful Base Unit connects directly to your BRAVIA Professional Display, as well as existing video and audio conferencing equipment. Everything is integrated and ready for you to click and share from Windows or Mac PCs, and Android or iOS devices.

BRAVIA BZ40H Series and Barco Clickshare CX-20

HUDDLE ROOMS

Transform even small spaces for inspiring conferencing

Modern offices require multiple levels of collaboration and the ClickShare CX-20 and BRAVIA Professional displays turn even the smallest cubby into an effective team space.

With instant sharing from a wide range of wireless devices, quick check-ins and huddles become full of impromptu inspiration. Frustrations around cabling and connectivity are replaced by productivity and progress.

- Bring your own Windows or Mac, and share from Android or iOS
- Agnostic compatibility with UC platforms, including Zoom, Teams, Webex and more, plus leading conferencing cameras and audio
- Centralised device management with ISO 27001 enterprise-level security
- Supplied with a USB conferencing Button for guests and one-click sharing.

APPS FOR FLUID SHARING

Use the ClickShare apps for Android or iOS devices, or Windows and Mac software for instant wireless sharing

CONFERENCING BUTTON

The supplied Button connects via USB Type-C®* for screen sharing and connection to conferencing cameras, display and audio with just a push – ideal for guests without the app installed

OFFICE READY

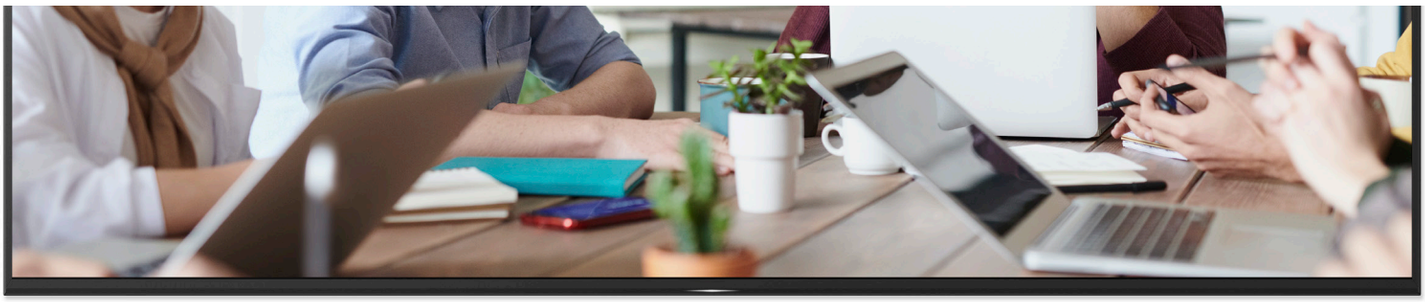
The ease-of-use of the ClickShare and Sony Professional display solution gives your whole office the confidence to share – even the technophobes!

A HUB FOR YOUR CONFERENCE SPACE

The ClickShare CX-20 packs a lot of power into its discrete form-factor

A 4K UHD-compatible HDMI output leverages the stunning picture quality of Sony Professional displays. USB Type-A and Type-C® allow configuration-free integration with popular conferencing cameras and audio systems. A simple Click connects all conferencing hardware for seamless wireless use inside your favourite conferencing app.

* connection to USB-A port possible with adapter (not delivered with unit)



BRAVIA BZ40H Series and Barco Clickshare CX-30

MEETING ROOMS

Device-agnostic wireless conferencing for small and medium spaces

Connect, share and collaborate using your favourite device with the ClickShare CX-30 and Sony Professional touch displays. Easily integrate with your conferencing cameras and audio, along with Touchback capability to control your PC, interactivity and presentations from the display.

- Bring your own Windows, Mac or in-room system, and share from Android or iOS
- Full interactivity with your favourite conferencing and presentation software via the Sony touch overlay panel
- Low power consumption for reduced energy cost
- Supplied with two USB conferencing Buttons for guests and one-click sharing.

- DEVICE AGNOSTIC

  Connect ClickShare to your existing conferencing camera and audio equipment for simple conferencing and presentation

- TOUCHBACK SUPPORT

  Combine a USB powered Sony touch overlay panel with ClickShare for 2-way interactivity, PC control, and more efficient and engaging meetings

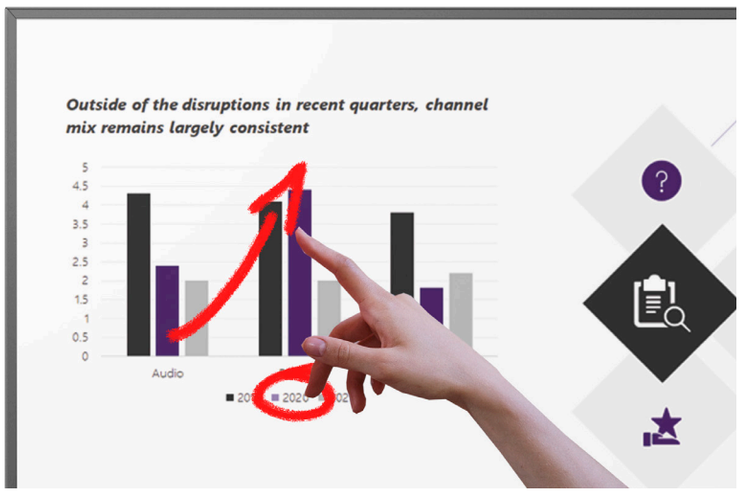
- FOR TEAMS AND CLIENTS

  ClickShare Buttons allow office guests and clients to share as easily as your team. The USB Type-C® Button wirelessly connects conference hardware in seconds – no software downloads required.

INTERACTIVITY AND ENGAGEMENT

Collaboration is just a click away

ClickShare lets you go from a one-on-one video call to full room conferencing in seconds. Simply connect a ClickShare Button to access the meeting space camera, display and interactive touch – all without having to even restart your call. The added flexibility of Barco ClickShare and Sony Professional displays open up meeting professionalism and fluidity never before possible.



BRAVIA BZ40H Series and Barco Clickshare CX-50

CONFERENCE ROOMS

Powerful conferencing solutions designed for enterprise-level integration

For demanding enterprise conferencing and boardrooms, the ClickShare CX-50 and Sony Professional displays are the key to dependable and functional meeting spaces for highly-connected organisations.

With high-quality wireless video and audio, flexible integration and network management, it's ClickShare simplicity for global business scale.

- Bring your own Windows or Mac, and share from Android or iOS devices or the HDMI input
- Bring your own meeting and presentation apps, for unlimited flexibility across a range of industries and disciplines
- XMS Cloud monitoring, management and analytics to drive productivity across even large deployments
- Supplied with two USB conferencing Buttons for guests and one-click sharing.

- HIGHEST QUALITY IMAGES

  The ClickShare CX-50 is perfectly partnered with Sony 4K displays, for high-resolution wireless image streaming and precise colour accuracy

- CLICK AND COLLABORATE

  Give powerful new meaning to meeting participation with wireless connectivity for the whole room, and simple sharing from Android and iOS devices

- HDMI CONNECTIVITY

  A convenient HDMI input provides the option for permanent or wired device connectivity.

WORKS WITH LOGITECH

Optimised for leading conference AV hardware

The Barco ClickShare system works with leading video conferencing cameras and audio from brands like Logitech. Instantly upgrade existing BYOD systems for powerful team collaboration and ease of use.

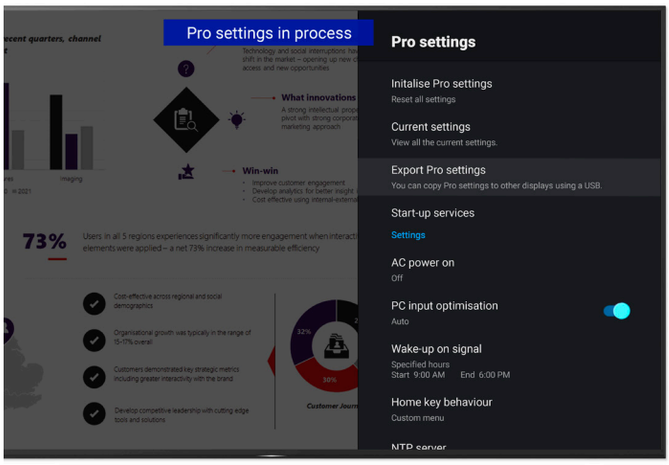
Dramatically improve your organisation's efficiency and return on investments with the clarity and ease-of-use of ClickShare and Sony Professional display solutions.

SONY DISPLAY SOLUTIONS

Engineered for inspiring innovation

BRAVIA Professional displays bring ideas to life in vivid detail, with industry-leading image processing, in-built functionality and adaptability.

With Android TV and flexible HTML5 customisation, BRAVIA 4K displays offer comprehensive connectivity - from USB to Bluetooth, wired and wireless LAN, and both IP and RS-232 control - to ensure they are ready to go to work for you.



SIMPLE ROLL-OUT

Set up multiple displays with our Conferencing Settings Installer, which has been optimised specifically for video communication and collaboration. A range of settings can be pre-configured including

- Disable unused apps and home screen access
- Activate auto input switching, wake-up, and power-saving
- Optimise picture modes for video and PC input
- Lock settings for reliable operation.

ENGAGE WITH A TOUCH

Transform your BRAVIA Pro into a powerful interactive panel with a slim Sony Multi-touch Overlay Kit

Sony's IR200 Series Multi-touch Overlays are available to suit a range of screen sizes (55", 65", and 75"), and feature slim, lightweight and optically-transparent designs. The responsive IR-touch system supports fluid interaction and up to 10 multi-touch points, with millimetre-detection precision for fingers, pens and other opaque objects. Advanced touch functions, such as pinch-to-zoom and right-click are also supported.

Standard USB connectivity permits direct display control to suit digital signage, room PC control, or HID-control for presentation laptops and wireless devices connected using solutions like Barco ClickShare Touchback.
